Include Only Those Team Members Who Were Present & Participated In The Planning & Presentation

Project Presentation Navigation

35 Points

1. All Members Must Participate (somewhat equally)
2. Presentation will last 5-7 Minutes
3. Topic –Final Project Novice Navigation System
4. Timing is Important. I recommend that you establish time keeper(s) which will make sure that each participant works within their allocated time allotment. PLAN!
5. Select one of your Final Project Sub-Systems. Construct the prototype.
 - a. Include a Tab Frame with data entry tabs for the first tab.
 - b. Assume that your potential stakeholders/customers are Professional Folk.
 - c. Select Buttons that would attract potential customers to your application.
 - d. Select A Color Scheme that would attract potential customers to your application.
 - e. Include First, Last, Next, Previous, & Quick-Link buttons.
6. You are welcome to have more advanced power user interfaces – extra credit – save the presentation of these for your final project.

Place The Following In You Team To Be Graded Folder

- 1] Name the folder containing your Prototype for the Navigation Presentation →
Team-X-Navigation-Presentation-Prototype ← using your team number
- 2] Each of you should have a copy of **Team-X-Navigation-Presentation-Prototype** on your personal computer/flash drive. Never place you only copy on Mars.
